

Bestwood Independent Hospital

This single-person Independent hospital service is an alternative to traditional hospital environments. The service, delivered in partnership with Nottinghamshire Healthcare Trust, provides support and care for adults with learning disabilities, mental health support needs and additional complex behaviours that may challenge services. We accommodate both informal patients and those detained under the Mental Health Act.

We have a proven track record of successfully working with people who are hard to reach and hard to support, through the use of bespoke person-centred services.

The Independent Hospital extends our care pathway to enable us to support people who require support under the Mental Health Act.

Nottinghamshire Healthcare 
NHS Trust

Positive about integrated healthcare

Accommodation

The Hospital comprises of six bespoke single-person, self-contained apartments. These apartments enable people to receive treatment and care in their own space with privacy and dignity, minimising the disruption of their lives and those who care for them. They are customised to a high specification based on individual needs, enabling us to care for people with complex needs in a personalised environment.

The apartments are conveniently located near to local amenities and are on the main bus route to Nottingham City Centre. They are ten minutes from M1 Junctions 26 or 27.

Expertise

We have an expert multi-disciplinary team in place consisting of a consultant psychiatrist, psychology, speech and language therapy and OT. The hospital is staffed 24 hours a day with a registered nurse and experienced support workers who are trained in person-centred care, support and enablement.

Who we support

The service suits those who require long term intensive support, but who will also benefit from an individualised service, as well as those who require a period of assessment and treatment as part of their care pathway. We accommodate both informal patients and those detained under the Mental Health Act.

Eden Supported Living

We have been providing high quality person-centred support and enablement services for people with mental health support needs and learning disabilities for over twenty years. We provide these services in a range of community-based options that include supported living, personal budgets, outreach work, community support and single-person registered care homes.

At Eden our goal is to enable people to live as independently as possible no matter what their circumstances; supporting people to achieve what they want and live fulfilling lives.
