

# CASE STUDY

## Lancashire

Summer 2020

Matthew\*, aged 21, has a diagnosis of foetal alcohol spectrum disorder and lives at Eden Futures' Lancashire service.

*Shona\*, his mum comments:  
"Matthew has settled into his new environment and at Eden Futures has found the most effective placement he has ever experienced.*

*"Previous settings have failed to understand the complex needs of his disability but Eden Futures has embraced this and support him through the good, as well as the more difficult periods, in his life.*

*"In truth, he still struggles to come to terms with his life and to make the progress that we'd all like him to make. There is much work to do but we truly believe that he is in the right setting for that process to happen. By working together and with confidence in the service, support programme and the excellent staff team, there is light at the end of the tunnel."*

**At Eden Futures he's  
found the most  
effective placement he  
has ever experienced.**

**Shona**
